About Me

Innovative and creative frontend developer with a passion for crafting immersive digital experiences. Eager learner with a solid foundation in HTML, CSS, and JavaScript, ready to tackle challenges and push boundaries. Strong believer in collaboration and communication to drive innovation. Outside of coding, adept at UI/UX design and drawing inspiration from diverse sources.

Education History

Higher Secondary School
Institution: Scared Heart Higher Secondary School
Year of Graduation: 2019

Bachelor of Engineering in Computer Science
Institution: M.I.E.T. Engineering college
Year of Graduation: 2023
- **secured a CGPA of 7.80% at my academy.**

Hard Skills

- **HTML5:** Proficient in writing semantic and structured HTML code to create the backbone of web pages.
- **CSS3:** Skilled in styling web pages using CSS, including the implementation of layouts, animations, and responsiveness.
- **JavaScript (ES6+):** Strong understanding of JavaScript fundamentals, including ES6 syntax, DOM manipulation, and asynchronous programming.
- **React.js:** Experience with the React.js library for building user interfaces, including component-based development, state management, and routing.

Soft Skills

- **Communication:** Effective communication skills are crucial for collaborating with team members, understanding project requirements, and articulating technical concepts to non-technical stakeholders.
- **Problem-Solving:** Frontend developers often encounter complex challenges while implementing designs or troubleshooting issues. The ability to think critically and devise creative solutions is essential for success in this role.
- **Time Management:** Frontend developers need to manage multiple tasks, prioritize deadlines, and work efficiently to deliver projects on time while maintaining high-quality standards.

Projects:

- **Dark Website:** Developed an e-commerce site for bags with a sleek, dark-themed UI using HTML5, CSS3, and JavaScript. Integrated secure payment gateways and ensured responsiveness for seamless user experience across devices.
- **Video Playing Website:** Created a versatile video streaming platform with HTML5 video elements and JavaScript for playback controls. Designed an intuitive interface, conducted extensive testing, and ensured compatibility across browsers and devices.
- **Parallax Website:** Crafted a visually engaging parallax scrolling site with captivating animations and responsive design principles. Seamlessly integrated multimedia content, optimized performance, and enhanced user experience on desktop and mobile.

Certificate course

- **JavaScript Foundations Certificate:** Completed a comprehensive program covering the foundational concepts of JavaScript, providing a strong understanding of the language's core principles and syntax.
- **Modern Web Designer Certificate:** Successfully completed a rigorous program on modern web design principles.
- **Coding for Designers Certificate:** Acquired knowledge and skills in coding languages (such as HTML, CSS, and JavaScript) to enhance design capabilities and collaboration with developers.
- **Introduction to Git and GitHub Certificate:** Learned the basics of version control and gained a high-level overview of both Git and GitHub. Perfect for someone with little to no first-hand experience with either.

Professional Experience:

Student Coordinator & Event Organizer, M.I.E.T. Engineering College (2019-2023)
- Organized and coordinated college events, ensuring their successful execution and smooth operation.

Team Leader (2021-2022)
- Led project teams with clear communication, achieving top grades and recognition as a hackathon finalist

Sem Project on Professional Readiness (2022-2023)
- Achieved a top grade of 10, showcasing proficiency in fostering innovation, employability, and entrepreneurship.
- Demonstrated consistent leadership and excellence with a grade point of 9 (A+).

Asset Project for College Students(2023-2024)
- Spearheaded an initiative to develop assets and resources beneficial for college students.
- Additionally, **worked as a freelance software developer** to further broaden skill set and gain real-world experience in software development.

Declaration

I hereby declare that all the information provided in this resume is true, complete, and accurate to the best of my knowledge.
